

# Crafting Solutions for Management of Large Wildland Fires and Prescribed Fires Across Tribal and Nontribal Jurisdictions—

Workshop 1-5 pm May 19 in Missoula, MT

Join the Northern Rockies Fire Science Network for a workshop on managing wildland and prescribed fire across jurisdictional boundaries.

Workshop participants will build on discussions from a 2012 workshop in Polson, MT where tribal members, land managers, scientists, and students explored challenges and solutions to integrating traditional knowledge and fire management.

This workshop is part of the May 19-23 Large Wildland Fires Conference. For details about registering for the conference and/or this workshop, visit the Northern Rockies website:
